

GU Health Medical Gap Network terms and conditions have been updated

Ongoing stakeholder engagement has highlighted the opportunity for us to improve the wording in the GU Health Medical Gap Network terms and conditions; particularly around Section 7: Auditing.

Based on this feedback this clause has been simplified to more accurately reflect the way we may conduct an audit.

Additionally, changes have been made to Section 8: Collection and publication of provider information, namely to clarify how we collect, use and where we may publish this information.
